What is Poxy Air Conditioner?

This product, which has the feature of being the first and only in Turkey, is called Air Conditioner because it provides microbiological effectiveness in its improved formula. While classical air fresheners scent the environment with bad odor bacteria suspended in the air, the Air Conditioner neutralizes the bacteria and creates a healthy and safe environment. While providing a long-term anti-bacterial effect, it brings clean and hygienic air to all living spaces.

While Poxy Air Conditioner destroys the bad odor and invisible bacteria in the environment with its three effective system, it leaves a fresh and pleasant odor to your living space. You can discover the hidden comfort of nature by refreshing the air of your environment with 7 different scents.
